The popular Guide to IBIZ Districts effectively promotes your business to locals and tourists alike. The publication touts all IBIZ Districts with photos, stories and the impact that buying local has on our culture and economy.

Because your business is located in an IBIZ District, you have an exclusive chance to promote your business and stand out in your District's pages in the Guide to IBIZ Districts.

The districts will be described to generate traffic to the district. Please note that advertisements within the IBIZ District pages are only available to IBIZ District businesses. You must be located within the District to advertise in your district pages.

**Not only will your ad be in the publication, but online as well.
